

In-Situ
— RENTALS —

Environmental Monitoring
Equipment Rentals

Factory-direct advantage

Renting directly from the manufacturer eliminates extra steps—your equipment is ready to go right out of the box, with no maintenance required after you're done. All cables, sensors, telemetry and accessories work together in a shared ecosystem, so you can set up, connect and deploy your instruments in just a few simple steps for maximum efficiency.

Total project support

With In-Situ Rentals, you have access to the largest inventory of clean, expertly maintained In-Situ equipment for groundwater, surface water, coastal and other environmental monitoring projects.

If something doesn't work as expected, we'll make it right—our accessible technical support teams are on standby to resolve any issues in the field.

Get what you need when you need it

In-Situ Rentals provides a convenient, cost-effective alternative to purchasing. We offer free ground shipping on all rentals within the continental United States, regardless of order size. We also accommodate last-minute requests; place an order by 2p.m. MST and you can have your instruments in the field the next day.

With flexible scheduling options for long-term rentals for low-flow sampling or other extended deployments, our rental offerings fit the timeline and scale of any project.

Rentals Simplified

1

Contact us.

Call **1-800-4INSITU** or visit our website to request a quote. A sales representative will be in touch shortly.

2

Confirm your order.

We'll send you a confirmation email with our rental agreement. Sign and return, and your order is on its way.

3

Receive your items.

Get items delivered or pick up your order at one of our warehouses. Free return shipping labels are always included.

Access our full inventory

Water Quality

Multiparameter Sondes & Sensors
CTD Loggers
Handheld Turbidity Meters
Fluorometers
Monitoring Buoys

Water Level

Level & Temperature Data Loggers
Water Level Meters
Oil/Water Interface Meters

Water Flow

Acoustic Doppler Meters
Velocity Meters (Stream Gauging)
In-Line Flow Meters

Air

Photoionization Detectors (PID)
Multi-Gas Meters
Noise Meters

Telemetry & Data Management

Cellular Telemetry
HydroVu Cloud-Based Data Management

Water Sampling

Low-Flow Sampling Kits
Pumps

- Peristaltic
- Centrifugal
- Bladder

Soil

Hand Augers
Power Hollowstem Augers
Sampling Kit

Accessories & Consumables

Mobile Devices
Cables
PPE
Decon Supplies
Tubing
Calibration Solutions & Gases
Well Accessories
Sampling Tools & Accessories
Bailers
Filters
